

# ACM ASIACCS 2019 Call for Papers

14th ACM ASIA Conference on Computer and Communications Security

July 7-12, 2019. Auckland, New Zealand

<https://asiaccs2019.blogs.auckland.ac.nz>

## Conference Topics

We invite submissions from academia, government, and industry presenting novel research on all practical and theoretical aspects of computer and communications security. Areas of interest for ASIACCS 2019 include, but are not limited to:

- Access control
- Accounting and audit
- Applied cryptography
- Authentication
- Big data security and privacy
- Biometrics security
- Blockchain security and privacy
- Cloud computing security
- Computer forensics
- Cyber-physical system security
- Data and application security
- Embedded systems security
- Formal methods for security
- Hardware-based security and applications
- IoT security and privacy
- Key management
- Malware and botnets
- Mobile computing security
- Network security
- Operating system security
- Practical post-quantum security
- Privacy-enhancing technology
- Runtime attacks and defenses
- Secure computation
- Security architectures
- Security of critical infrastructures
- Security metrics
- Software security
- Threat modeling
- Trusted computing
- Usable security and privacy
- Web security
- Wireless security and privacy

We also solicit systematization of knowledge (SoK) papers that evaluate, systematize, and contextualize existing knowledge in the above research areas, which was introduced in IEEE Symposium on Security & Privacy.

## Important Dates

Abstract registration deadline:	January 15, 2019
Submission deadline:	January 22, 2019
Early rejection notification:	March 8, 2019
Acceptance notification:	April 3, 2019
Camera ready deadline:	April 30, 2019
Conference date:	July 7-12, 2019

## **Paper Formatting**

Submissions to ASIACCS are to be written in English. Papers must be at most 12 pages including bibliography. However, a maximum of 3 additional pages can be used for well-marked appendices. Note that appendices cannot exceed 3 pages even if the main text is less than 12 pages. Submissions must follow the [new ACM conference template](#), which has been updated for 2017 (Use sigconf style). Submissions should not use older ACM formats or non-standard formatting. Submissions must be in Portable Document Format (.pdf). Authors should devote special care that fonts, images, tables and figures comply with common standards and do not generate problems for reviewers. Systematization of knowledge papers need to prefix the paper title with “SoK:”. Submissions not meeting the formatting requirements risk rejection without consideration of their merits.

## **Submission Site**

The site for paper submission is: <https://asiaccs19.hotcrp.com/>. Please read the above submission instructions before submitting the paper. If you have any questions, please contact: [asiaccs19-tpc-chairs@googlegroups.com](mailto:asiaccs19-tpc-chairs@googlegroups.com).

## **Anonymous Submissions**

ASIACCS is employing a double-blind reviewing process. All submissions should be appropriately anonymized. Author names and affiliations should not appear in the paper. Authors should avoid obvious self-references and should appropriately blind them if used. The list of authors cannot be changed after the acceptance decision is made unless approved by the Program Chairs.

## **Double and Concurrent Submissions**

Submissions to ASIACCS 2019 must not substantially overlap with papers that are published or simultaneously submitted to other venues (including journals or conferences/workshops). Double-submission will result in immediate rejection. Detected violations may be reported to other conference chairs and journal editors.

## **Ethical Considerations**

Authors should take care of clarifying any potential ethical and legal concerns to their results, highly critical vulnerabilities or exploits, etc., and provide evidence that they have thoroughly considered such issues.

The Program Committee reserves the right to reject a submission if insufficient evidence is presented that ethical or relevant legal concerns were appropriately addressed.

## **Camera-Ready and Conference Presentation**

If a paper is accepted, the author list in submission cannot be changed when preparing the camera-ready version. Authors of accepted papers must also guarantee that their papers will be presented at the conference. At least one author of the paper must be registered at the appropriate full conference rate.

## **Early Rejection and Appeals**

There will be no conventional rebuttal process. Papers that receive substantially negative initial reviews will be rejected early. The authors of early-rejected papers, and only such papers, will receive a copy of their initial reviews. Authors who substantively disagree with the reviews can appeal to the PC chairs. Authors' appeals must clearly and explicitly identify concrete disagreements with factual statements in the initial reviews that should be adjudicated by a special arbitration reviewer who may be recruited by the PC chairs. Appealing a submission that was rejected early will keep it under consideration, and it cannot be withdrawn or resubmitted elsewhere until the final notification of acceptance or rejection.

For inquiries on technical program, please contact program chairs: [asiaccs19-tpc-chairs@googlegroups.com](mailto:asiaccs19-tpc-chairs@googlegroups.com).

# Organization

## General Chairs:

- Giovanni Russello (University of Auckland, New Zealand)
- Steven Galbraith (University of Auckland, New Zealand)
- Willy Susilo (University of Wollongong, Australia)

## Program Chairs:

- Dieter Gollmann (Hamburg University of Technology, Germany; Nanyang Technological University, Singapore)
- Engin Kirda (Northeastern University, USA)
- Zhenkai Liang (National University of Singapore, Singapore)

## Publicity Chairs:

- Rizwan Asghar (University of Auckland, New Zealand)
- Nicola Zannone (Eindhoven University of Technology, The Netherlands)
- Joonsang Baek (University of Wollongong, Australia)

## Workshop Chair:

- Kim-Kwang Raymond Choo (University of Texas at San Antonio, USA)

## Poster Chair:

- Manuel Egele (Boston University, USA)

## Sponsorship Chair:

- Lech Jan Janczewski (University of Auckland, New Zealand)

## Web Chair:

- Manoranjan Mohanty (University of Auckland, New Zealand)

## Steering Committee:

- Gail-Joon Ahn (Arizona State University, USA)
- Robert Deng (Singapore Management University, Singapore) – Chair (2013-2017)
- Adrian Perrig (ETH Zürich, Switzerland)
- Kui Ren (Zhejiang University, China)
- Shiuhyng Shieh (National Chiao Tung University, Taiwan) – Founding Chair (2006-2013)
- Xiaofeng Wang (Indiana University Bloomington, USA)
- Jianying Zhou (Singapore University of Technology and Design, Singapore) – Chair
