EDPRAC 105B Practicum 1

2021

Kia Ora and greetings to all those in the professional education community of the Faculty of Education and Social Work, The University of Auckland: our practicum centre teachers, children, families and whānau, student teachers and professional supervisors.

Our teacher education programmes are accredited by the Teaching Council of New Zealand. The Teaching Council has set six standards for the teaching profession, and provides a code of professional responsibility that describes teachers’ obligations and behaviours. These standards provide the organising themes of this qualification, and student teachers will be able to trace their progress towards them through courses and practicum experiences in education settings. We have grouped the six standards into three themes that summarise their intent: partner, design and inquire. These three key ways of working will shape student teachers experience of learning to teach.

We aim to support student teachers to become self-aware, self-critical, inquiring professionals, who understand the complexities of teaching and are able to employ multiple perspectives and meet future challenges. Graduates will integrate theory, research and practice and be able to teach diverse learners appropriately in Aotearoa/New Zealand.

These practicum guidelines are intended to inform all parties to the practicum. Working in partnership during practicum experiences is vital to maintaining high expectations of student teachers to achieve the learning outcomes.

Practicum learning is self-directed learning. Student teachers are expected to engage in teaching and learning practices within the context of the practicum and work towards meeting the assessment criteria. In this practicum, the first in the programme, student teachers observe and engage in their learning with a focus on relationships and communication in the ECE context.

We look forward to guiding student teachers development towards meeting the standards and being able to teach in ways that make a positive difference for ākonga, their families/whanau, and the education settings and colleagues they work with.

EDPRAC 105 Course Descriptor and Learning Outcomes

Calendar Prescription:
Builds relationships and establishes professional communication with ākonga and colleagues. Engages in collaborative teaching and learning. Explores the role of the professional teacher through an inquiry-based approach to teaching and learning.

Points: 15

Learning Outcomes:

1. Demonstrate an ability to engage in positive, respectful relationships and develop professional communication with ākonga and colleagues.

2. Utilise and reflect on pedagogical practices informed by theory, research and evidence to facilitate ākonga learning.

3. Discuss what it means to be an emerging kaiako in Aotearoa New Zealand in alignment with professional expectations.

4. Identify and discuss ways significant aspects of the learning/teaching context impact on the role of kaiako.

5. Use digital technologies to foster and enhance digital collaboration

**PART A:**
2- week introductory practicum usually paired placement  
*Semester one*

**Part B:**
5- week Practicum  
*Semester two*

**Part A:**
4-week placement  
*Semester One*

**PART B:**
8-week practicum placement  
*Semester Two*
Four recurrent learning themes have been identified as critical to the student’s development of high-quality pedagogical practice during practicum placements.

These are:
- understanding the complexity of the teacher’s role and the educational contexts
- forming professional relationships - including effective communication
- focusing on purposeful teaching and learning
- becoming a professional

It is intended that these themes be explored in greater depth in each consecutive practicum placements.

### The Purpose of EDPRAC 105

Practicum Course EDPRAC 105 The Professional Teacher 1 provides an opportunity for the student teachers to become familiar with the role of the teacher and the ECE centre environment. Student teachers are required to demonstrate the appropriate professionalism and communication expected of a developing teacher.

The course includes two placements:
- Part A (semester one): A 2-week paired practicum placement (where possible) in a care and education centre with children over two years.
- Part B (semester two): A 5-week practicum placement in a Kindergarten.
Requirements of EDPRAC 105B

Prior to practicum: Student teachers are required to:

- Engage in EDPRAC 105B practicum preparation and briefing sessions
- Visit the centre prior to practicum: Meet the Associate Teacher, Kaiako, children and become familiar with the centre setting.
- Prepare a one-page introduction (with photo) to display at the centre
- Discuss expectations for practicum and complete student teacher/Associate Teacher contract.
- Read this handbook thoroughly and become familiar with the expectations and learning outcomes of this practicum.
- Undertake all preparatory tasks for practicum.

During Practicum:

Student’s teachers are encouraged to introduce themselves to children, the teaching team, parents and whānau, and become familiar with the centre environment.

Student teachers are encouraged to involve themselves as much as possible in all aspects of the centre, including interacting with the children and teachers and undertaking the routine tasks of the centre. If they are unsure about processes (for example involvement in sleep routines /meal times) – this needs to be discussed with the associate teacher for guidance.

This is usually a paired practicum and student teachers will likely have the opportunity to share ideas and learning with their practicum peer. Discussing observations with reference to the course work they are engaged in will enable them to gain a greater depth of understanding. Communication and relationships are key factors towards a successful practicum experience. Research tells us that student teachers who collaborate, with peers, associate teachers and the other teachers in the setting, are more likely to have a satisfying learning experience (Walsh & Elmslie, 2005). Teamwork is always an important aspect of early childhood education and we encourage student teachers to work together as well as individually.

**Learning Outcomes and Assessment Criteria**

To pass this practicum course students are required to demonstrate the following five learning outcomes. The assessment criteria will be used to assess achievement of each Learning Outcome.

<table>
<thead>
<tr>
<th>Learning Outcomes</th>
<th>Assessment Criteria</th>
</tr>
</thead>
</table>
| 1: Demonstrate an ability to engage in positive, respectful relationships and develop professional communication with ākonga and colleagues. | • appropriate oral and written communication with tamariki and kaiako is established competently (KTT 4)  
• appropriate professional relationships with tamariki and kaiako are established positively (KTT 8) |
| 2: Utilise and reflect on pedagogical practices informed by theory, research and evidence to facilitate ākonga learning. | • teaching responses are informed by observations (noticing) the interests and abilities of tamariki (KTT 3)  
• learning is identified and discussed (recognised) (KTT 3)  
• different ways of teaching (responding) to the interests and learning of tamariki are identified (KTT 3, 7)  
• Provision for a safe and purposeful learning environment is made, with support (KTT 1, 2)  
• strategies are identified for positively guiding tamariki as they develop skills in social competence (KTT 11) |
| 3: Discuss what it means to be an emerging kaiako in Aotearoa New Zealand in alignment with professional expectations. | • behaviours and understandings within the frameworks of Tapasā and Tātaiako are identified and discussed (KTT 10)  
• standards of conduct stipulated by the NZ Teaching Council Code of Professional Responsibility are demonstrated (KTT 12)  
• opportunities for own professional growth are recognised and actioned |
| 4: Identify and discuss ways significant aspects of the learning/teaching context impact on the role of kaiako. | • the complex roles that kaiako carry out within the ECEC context are identified and discussed.  
• key influences on the learning and development of tamariki are identified, discussed and reflected upon.  
• relevant legislative requirements and centre policies are identified and explored (KTT 9, 13) |
| 5: Use digital technologies to foster and enhance digital collaboration          | • digital tools and experiences in the learning and teaching programme are identified and discussed  
• digital technologies are used to foster and enhance digital collaboration with peer and teaching colleagues |
Practicum Portfolio:

Student teachers are required to create a hard copy practicum portfolio to file evidence of their learning and teaching during practicum as one way of demonstrating achievement of the required learning outcomes for EDPRAC 105B.

The practicum portfolio is more than just material gathered during placements, it is evidence of meaningful engagement with children, teachers and the learning context; it demonstrates understanding of developing teaching practice and evidence of progress toward and achievement of the learning outcomes.

The portfolio needs to provide evidence of how student teachers have met the learning outcomes and so presenting the portfolio with a section for each learning outcome would be advised.

The portfolio will likely include:

- Reflective writing (one each week, unless Professional Supervisor requires more), including feedback from AT and PS and evidence of this feedback has been used/responded to.
- Photographs and interpretative statements (following permission process and showing awareness of privacy and confidentiality with digital documents)
- Records (e.g. copies) and interpretations of children work as a demonstration of own teaching practice.
- Assessment for children’s learning (e.g. observations, notes, learning stories)
- Records of meetings that have been attended (and what has been learnt from these meetings)
- Evidence of engagement and communication with families, whānau and the wider educational community
- Evidence of contributions to the centre programme

Permission to undertake observation and assessment

The ethics of undertaking assessments of infants, toddlers and young children need to be carefully considered, particularly given the current frequent use of photographs in children’s portfolios. You may contribute to centre documentation and provide this as evidence during the triadic assessment process. However, for any material that a student teacher wishes to take away as practicum evidence, permission must be obtained. Please note this is a requirement not covered by centre permission on enrolment forms or any other similar method. The required permission form can be downloaded from the course Canvas site.

Reflections

Students are to document one reflection in weeks 1-4. Reflections need to identify the learning outcome/s each piece of reflective writing relates to. Reflections are to be shared/emailed to the Professional Supervisor for feedback and also shared with and discussed with the Associate Teacher. Student teachers will receive written feedback from the Professional Supervisor and Associate Teacher and will be expected to demonstrate how they have considered this feedback to develop and refine their practice.

The portfolio should be used as a basis for professional discussion with the Associate Teacher and Professional Supervisor and therefore will be made available to them at all times during the practicum.
Practicum Guidelines for Student Teachers and Associate Teachers

Professional Expectations

Student teachers must demonstrate professional behaviour and responsible practice through all of their practicum experiences. Reference should be made to the Bachelor of Education (Teaching) Handbook, particularly the sections Practicum Placements, “Confidentiality on Practicum” and the Teaching Council of Aotearoa NZ Code of Professional Responsibility. Student teachers are expected to be involved in the life of the early childhood centre and to engage positively in collaboration with others. They should maintain confidentiality at all times.

Professional Relationships

With colleagues
Students are expected to initiate, develop and maintain effective professional relationships with a range of people in the education community. These include the professional supervisor, the associate teacher, the teaching team, other centre staff and support services.

Engagement in and evidence of professional discussions, team meetings and centre events is expected in order to meet the Learning Outcomes of practicum. Through discussions with the associate teacher, expectations regarding the role of the student within the centre will be established. This may vary from setting to setting.

The roles of the Professional Supervisor and the Associate Teacher are to support students in working towards meeting the Learning Outcomes of practicum. Open communication is key to this and may take the form of face-to-face discussions/meetings, telephone conversations and emails and written feedback on reflections and may be initiated by any of those involved.

With children
Students are required to develop meaningful and responsive relationships with children using a range of strategies appropriate to the centre context. Learning occurs across the many experiences in each child’s day; in routine times such as meals, transition to sleep, toileting as well as during their play and investigative experiences. These are all opportunities for meaningful engagement with children. You should be mindful of the tension between the need to develop strong relationships with children and the impact on children of the short-term nature of practicum.

As respect and trust are pre-requisites for the development of meaningful relationships students need to be mindful to interact respectfully at all times, working alongside children in ways that empower them to direct their own learning.

With parents and whānau
Building and maintaining effective relationships with parents and whānau is a key role of the teacher. Practicum provides students with a unique opportunity to engage with families and therefore to acquire these skills with the support of experienced teachers. The Associate Teacher and the student will need to discuss the ways in which it is appropriate for the student to engage with families in the context of the centre.
Note: Student Teachers must be supervised at all times in the early childhood centre.

Attendance
Students are required to attend the centre full time each day (7½ hours). This includes 1.5hrs for breaks/non-contact time. Starting and finishing times are to be negotiated with the Associate Teacher. Students are required to be punctual and appropriately dressed for practicum.

Absences
If, for some unexpected reason the student teacher cannot attend the centre on any day, they are required to phone the centre as early as possible to inform the Associate Teacher. Student Teachers are expected to also email the Professional Supervisor to inform them of the absence. Absences will result in student teachers having to extend the practicum placement. Absence for more than five days requires a medical certificate.

Special leave from practicum
Special leave from practicum must be applied for in advance and will only be allowed under exceptional circumstances. This form is available from the EDPRAC 105 CANVAS page.

Managing a Disability
If a Student Teacher has a disability (ongoing or short term) they are strongly recommended to make an appointment with disability@auckland.ac.nz to:

- register the disability so that they can access special consideration should they need it;
- discuss how to manage the disability while on practicum;
- identify strategies that can be put in place in order to prevent any potential problems;
- decide how and what to disclose to colleagues in centres. This includes conditions such as dyslexia, physical impairments, mental illness etc.

Centre Policies
Student Teachers are expected to become familiar with and act in accordance with centre policies, particularly those that impact directly on health and safety, child protection, social competence and cyber safety.

Health and Safety
Student Teachers are asked to pay attention to the appropriate Occupational Health and Safety policies (Including Hazard register) at each practicum placement centre. Student Teachers are expected to take responsibility for themselves in this regard.

Cleaning in the early childhood centre
Student teachers are expected to undertake general tidying and cleaning as part of the daily routines, however student teachers are not expected to engage in cleaning tasks that are the domain of cleaners.

Care Routines
The intimate practices of sleeping and meal times are valuable opportunities for a child’s learning as part of a holistic approach. It is advisable for student teachers, wherever appropriate and suitable, to participate in these routines. Involvement in routines must be negotiated with the associate teacher and Student Teachers must be supervised at all times.

Student teachers are not to be involved in children’s toileting routines.

Procedures for child protection
Bearing in mind the four types of child abuse, i.e. physical, sexual and emotional abuse and neglect, all student teachers must familiarise themselves with the early childhood centres child protection policy. It is essential to adhere to the procedures set down for each early childhood centre. In instances where student teachers have a concern about any procedure regarding child protection in its widest definition the concern should be discussed as soon as possible.
Roles and Responsibilities of Practicum Partners

Student teacher:
- Attend and engaged in the compulsory EDPRAC 105B briefing session
- Visit the centre prior to practicum: Meet the Associate Teacher, Kaiako, children and become familiar with the centre setting (must show Photo ID on first visit)
- Prepare a one-page introduction (with photo) to display at the centre
- Discuss expectations for practicum and complete student teacher/Associate Teacher contract.
- Read this handbook thoroughly and become familiar with the expectations and learning outcomes of this practicum.
- Undertaken all preparatory tasks for practicum.
- Review course content for application in practicum context
- Establish and maintain professional relationships with children and teachers and practicum peer
- Ask questions, facilitate discussions with associate teacher and practicum peer
- Establish and maintain a professional practicum portfolio with documentation that demonstrates learning related to the two key learning outcomes

NOTE:
Classes are structured to prepare student teachers for practicum experiences out in centres. These classes are an important and integral part of preparing students for practicums and their future teaching profession. In our experience, students who miss lectures are often inadequately prepared for their practicums. We reserve the right to not allow students a place in practicum where we determine that they are not sufficiently prepared. This could result in failure of the practicum course in which they are enrolled. Should exceptional circumstances arise regarding attendance, students need to contact Shareen Sapsworth (s.sapsworth@auckland.ac.nz)

Associate teacher:
- Prepare for practicum by reading the EDPRAC 105B handbook, and meeting with student teacher
- Introduce student teacher to teachers, whānau and children
- Induct student teacher into centre’s policies, programme and environment
- Provide support and encouragement
- Discuss student teacher responsibilities and participation/contributions
- Discuss any concerns with student teacher and practicum course co-ordinator
- Regard student teacher as a potential professional colleague
- Set aside time each week to meet with student teacher to discuss students progression toward learning outcomes.
**Professional Supervisor**

The Faculty of Education and Social Work recognises that the Professional Supervisor has an important responsibility in the monitoring, guidance and assessment of students’ professional growth. However, the professional supervision of students is seen as a collaborative process. As such, it is hoped that the Professional Supervisor, Associate Teacher and Student Teacher will work together in a relationship that encourages mutual trust, professional support and inquiry. Communication and liaison are therefore critical to the Professional Supervisor’s role. The Professional Supervisor will be the point of contact for the student during the practicum.

**The Professional Supervisor role**

The Professional Supervisor will have been in email contact with the student teacher and Associate Teacher prior to practicum commencing.

**Week one**

- contact Student Teacher/Associate Teacher to check the Student Teacher has settled in
- clarify practicum requirements and provide initial guidance (if required)
- check student teacher has prepared a profile page
- check/clarify student teacher’s hours of attendance/non contact time
- set up process of receiving and responding to weekly reflections
- visit the student teacher (end of week 1/beginning of week 2) to discuss progress toward course learning outcomes
- arrange date/time for observation and triadic assessment visit

**During practicum**

Read and provide written feedback on reflection, respond to queries, liaise as necessary, provide support, deal with concerns (if needed)

**Week five**

- Observe student teachers practice and read practicum portfolio, facilitate and contribute to summative triadic assessment
- make (provisional) assessment decision
- provide guidance and clarify future needs (as required)
- complete and submit final report

**THROUGHOUT THE PRACTICUM THE PROFESSIONAL SUPERVISOR ACTS AS THE FACULTY OF EDUCATION AND SOCIAL WORK LIAISON PERSON AND SHOULD BE THE FIRST POINT OF CONTACT.**
The summative triadic assessment will take place after the professional supervisors’ observation. At this time the student teacher, associate teacher and professional supervisor will engage in an oral triadic reflective process. The professional supervisor will facilitate discussion about achievement of the learning outcomes. Ultimate responsibility for moderation of standards remains with the Faculty of Education and Social Work. At the conclusion of this five-week placement the student teacher will be required to demonstrate achievement of the learning outcomes for the course by providing evidence that they have successfully fulfilled the assessment criteria.

Evidence will include:

**From the student teacher:**
Student teachers teaching practice, practicum portfolio containing documentation (including reflections) and the student teacher self-assessment report.

**From the Associate Teacher:**
Associate teacher assessment report based on interactions with the student teacher, observation of student teacher practice and evidence in student teacher’s practicum portfolio.

**From the Professional Supervisor:**
Professional Supervisor assessment report based on interactions with the student teacher, observation of practice and analysis of evidence in student teacher’s practicum portfolio.

Each learning outcome will be assessed in relation to the assessment criteria. The assessment terms for each learning outcome will be:

**LA** means learning outcome achieved and indicates the competent demonstration of the assessment criteria. Competence is evident through the student teacher’s consistent professional practice and appropriate written evidence in the portfolio.

**LN** means learning outcome not achieved and indicates lack of competent demonstration of the performance criteria through either lack of consistent professional performance or lack of appropriate written evidence in the portfolio or both.

Any result prior to the conclusion of the practicum is conditional. For successful student teachers, this success is contingent on completing the remainder of the practicum to the same level of performance; for unsuccessful student teachers, there may be the opportunity to redeem practice or evidence in one or two areas to achieve a pass result. Confirmation of the final result may therefore be made at the time of the triadic assessment processes or may be made on the final day of the scheduled practicum, in which instance the professional supervisor will phone the associate teacher at the early childhood centre to check the final outcome.

Assessment of the student teacher’s performance in practicum will be based on Professional judgment guided by the assessment criteria of the learning outcomes. It is important that all participants in the triadic assessment process are fully conversant with the learning outcomes and their related assessment criteria.

The final decision about pass/fail will be made by the Professional Supervisor/Faculty of Education and Social Work on the basis of evidence gathered during the observation, triadic discussion and the documentation in the practicum portfolio. Moderation of standards remain with the Faculty of Education and Social Work.
Appendices

Appendix One:

Our Code Our Standards Code of Professional Responsibility and Standards for the Teaching Profession

Teaching Council of Aotearoa New Zealand 2017
https://teachingcouncil.nz/content/our-code-our-standards

<table>
<thead>
<tr>
<th>Standards</th>
<th>Elaboration of the standard</th>
</tr>
</thead>
<tbody>
<tr>
<td>Te Tiriti o Waitangi partnership</td>
<td>Understand and recognise the unique status of tangata whenua in Aotearoa New Zealand. Understand and acknowledge the histories, heritages, languages and cultures of partners to Te Tiriti o Waitangi. Practise and develop the use of te reo and tikanga Māori.</td>
</tr>
<tr>
<td>Professional learning</td>
<td>Inquire into and reflect on the effectiveness of practice in an ongoing way, using evidence from a range of sources. Critically examine how my own assumptions and beliefs, including cultural beliefs, impact on practice and the achievement of learners with different abilities and needs, backgrounds, genders, identities, languages and cultures. Engage in professional learning and adaptively apply this learning in practice. Be informed by research and innovations related to: content disciplines; pedagogy; teaching for diverse learners, including learners with disabilities and learning support needs; and wider education matters. Seek and respond to feedback from learners, colleagues and other education professionals, and engage in collaborative problem solving and learning-focused collegial discussions.</td>
</tr>
<tr>
<td>Professional relationships</td>
<td>Engage in reciprocal, collaborative learning-focused relationships with: Learners, families and whanau Teaching colleagues, support staff and other professionals Agencies, groups and individuals in the community Communicate effectively with others Actively contribute, and work collegially, in the pursuit of improving my own and organisational practice, showing leadership, particularly in areas of responsibility Communicate clear and accurate assessment for learning and achievement information.</td>
</tr>
<tr>
<td>Learning-focused culture</td>
<td>Develop learning-focused relationships with learners, enabling them to be active participants in the process of learning, sharing ownership and responsibility for learning. Foster trust, respect and cooperation with and among learners so that they experience an environment in which it is safe to take risks. Demonstrate high expectations for the learning outcomes of all learners, including for those learners with disabilities or learning support needs. Manage the learning setting to ensure access to learning and to maximise learners’ physical, social, cultural and emotional safety. Create an environment where learners can be confident in their identities, languages, cultures and abilities. Develop an environment where the diversity and uniqueness of all learners are accepted and valued. Meet relevant regulatory, statutory and professional requirements.</td>
</tr>
<tr>
<td>Design for learning</td>
<td>Select teaching approaches, resources, and learning and assessment activities based on a thorough knowledge of curriculum content, pedagogy, progressions in learning and the learners Gather, analyse and use appropriate assessment information, identifying progress and needs of learners to design clear next steps in learning and to identify additional supports or adaptations that may be required Design and plan culturally responsive, evidence-based approaches that reflect the local community and Te Tiriti o Waitangi partnership in New Zealand Harness the rich capital that learners bring by providing culturally responsive and engaging contexts for learners. Design learning that is informed by national policies and priorities.</td>
</tr>
<tr>
<td>Teaching</td>
<td>Teach in ways that ensure all learners are making sufficient progress, and monitor the extent and pace of learning, focusing on equity and excellence for all. Specifically support the education aspirations for Māori learners, taking shared responsibility for these learners to achieve educational success as Māori. Use an increasing repertoire of teaching strategies, approaches, learning activities, technologies and assessment for learning strategies and modify these in response to the needs of individuals and groups of learners. Provide opportunities and support for learners to engage with, practise and apply learning to different contexts and make connections with prior learning Ensure learners receive ongoing feedback and assessment information and support them to use this information guide further learning.</td>
</tr>
</tbody>
</table>

Note: the ‘Elaboration of the standard’ is not a checklist but aims to give the profession a shared understanding of possible evidence that might attest to each of The Standards
Appendix Two: Procedures for Resolving Concerns during the Practicum

1. Students failing to meet professional expectations and/or make appropriate progress

At times a student teacher may fail to understand the role of the teacher and his/her behaviour fails to meet professional expectations. This may often be difficult to articulate particularly in written form. However, this should not impede notification of any concern. A concern needs to be articulated as soon as it becomes evident. The Professional Supervisor should be notified in the first instance. Transparency is important. A student needs to be informed clearly of any concerns held and the processes that will be undertaken to address this. This will give the student teacher the opportunity to work towards meeting requirements. All communication should be documented and signed and dated by participants in the process.

The following steps are guidelines that an Associate Teacher should use if a student does not meet the professional standards expected.

1.1 Identifying the concern(s)
The Associate Teacher needs to identify the area of concern. This can be in any area: relating to children, disposition, communication, meeting centre requirements. Concerns should be linked to any of the following: practicum Learning Outcomes, Key Teaching Tasks, the Teaching Council of Aotearoa New Zealand Code and Standards for the Teaching Profession.

1.2 Articulating concern(s) to the Student Teacher and other centre professionals
First inform the Student Teacher about the concern about his/her progress and advise that steps need to be taken to address this. Following the discussion, document the concerns and formulate an agreed written plan of action that the student teacher can use to guide his/her progress in the area of concern. This will provide the student with an opportunity to evaluate their practice and consider how to work towards success. All the documentation should be dated and signed by both the Associate Teacher and Student Teacher.

1.3 Liaising with the Professional Supervisor
Contact the Professional Supervisor and explain concerns. Forward a copy of the plan to be implemented. The Professional Supervisor will contact the student teacher to discuss and where needed may organise a visit to the centre to meet with the Student Teacher and Associate Teacher. During the discussion the Student Teacher needs to be informed of which Learning Outcome(s) is at risk and what needs to be done, and by when, in order to pass the practicum. The Professional Supervisor will observe the student teacher in the centre if necessary.

1.4 Documenting Student Progress
The Associate Teacher needs to give regular oral and written feedback to the Student Teacher. Where appropriate other senior teachers in the centre may also wish to make an observation and give feedback and feed forward to support the student teachers progress.

2. When the student teacher has a concern regarding her/his associate teacher or the early childhood centre

2.1 The student teacher expresses concern to the associate teacher. Resolution may be achieved by professional discussion.

2.2 If concern is unresolved the student teacher seeks help from the Professional Supervisor who will facilitate conflict resolution with Associate Teacher and Student Teacher. Hopefully a way forward will be found.

2.3 If concern is still unresolved the practicum course co-ordinator must be informed and may be consulted to help facilitate resolution. A senior person from the early childhood centre or association may also be consulted.

2.4 Possible relocation of the Student Teacher is a last resort.
3. **When the Associate Teacher has a concern regarding the Professional Supervisor**

3.1 The Associate Teacher expresses concern to the Professional Supervisor. Resolution may be achieved through professional discussion.

3.2 If concern is unresolved the Associate Teacher should address concern to the Practicum Co-coordinator. A senior person from the early childhood centre or association may also be consulted. The practicum course co-ordinator will facilitate conflict resolution between Associate Teacher and Professional Supervisor.

4. **When the Professional Supervisor has a concern regarding the Associate Teacher or the early childhood centre**

4.1 The Professional Supervisor expresses concern to the Associate Teacher. Resolution may be achieved through professional discussion.

4.2 If concern is unresolved the Professional Supervisor should address concern to the Practicum Course Co-ordinator who will facilitate conflict resolution between Professional Supervisor and Associate Teacher.

5. **When the student teacher has a concern regarding the Professional Supervisor**

5.1 The student teacher expresses concern to the Professional Supervisor. Resolution can be achieved through professional discussion.

5.2 If concern is unresolved the student teacher may address concern to the Practicum Course Co-ordinator who will facilitate conflict resolution between the student teacher and Professional Supervisor.
Appendix Three: Key Teaching Tasks - Scale of progression toward achievement of Key Tasks

Key Teaching Tasks are tasks that early childhood teachers from the University of Auckland can be entrusted to carry out upon graduation from the programme. Student Teachers will be supported during practicum placements (and courses) to progress toward performing key tasks proficiently by the end of the programme.

Progression will be measured throughout the programme and documented within practicum reports.

Appendix Four: Reflective Practice

Reflection is the process by which teachers consider, analyse and synthesise their personal practice with a view to improving it. This is the key to professional growth and development as a teacher. Seeking opportunities to engage in professional discussions with Associate Teacher, Professional Supervisor and other teachers will assist student teachers to develop their reflective practice.

During this practicum student teachers are required to reflect regularly on their own teaching, learning, and interactions that have caused uncertainty, and to analyse these in detail. Reflective practice will take the form of discussions with the Associate Teacher, Professional Supervisor and other teachers. Discussions can be helpful to clarify thinking and to examine beliefs about teaching and learning. Student teachers are encouraged to maintain documentation relating to significant incidents and their learning in their practicum portfolio.

Student teachers are required to write one reflection each week (excluding week 5). Students are encouraged to select aspects of ‘significant learning’ from their own teaching, learning or interactions and in greater detail using the following model:

- **describe** the incident/situation/experience
- **consider perspectives** that informed actions/thoughts
- **understand** what has informed thinking/behaviour/practice – considering what do I understand about myself as a teacher?
- **act/reconstruct** for future consideration

Reflections need to identify links to the Learning Outcome/s and Teaching Standard/s and be shared with the Associate Teacher and Professional Supervisor for feedback. Students are required to show how they have used/considered the feedback they have received.

Appendix Five: Children’s Act 2014

Every student applying for admission or admitted to an Initial Teacher Education programme or Bachelor of Social Work, Postgraduate Diploma in Counselling Theory, Master of Counselling and Master of Social Work Professional programme will be subject to safety checks under the Children’s Act 2014. A safety check includes (but is not limited to) a New Zealand Police vet and an assessment of the risk, if any, that the student would pose to the safety of children if employed or engaged as a children’s worker. If a student enrolled in an Initial Teacher Education, Counselling or Social Work programme is found to have been convicted of a specified offence (as listed in Schedule 2 of the Children’s Act) or otherwise assessed to pose an undue risk to the safety of children, they may not be permitted to perform the required practical work and so be unable to complete the programme. Please refer to the legislation for more information.

If you have concerns about past convictions for specified offences or whether you could be assessed to pose an undue risk to the safety of children, you should notify us by emailing esc.manager@auckland.ac.nz. You should note that the Criminal Records (Clean Slate) Act 2004 does not apply to Police vets conducted to perform safety checks of core children’s workers under the Children’s Act 2014, even if it would normally permit that person to conceal their criminal convictions.
