3.9 Using a 4 x 3 grid as a scaffold to support reading comprehension

(*The Refugee Handbook for Schools*’ Learning Media: Ministry of Education, 2004)

The 4 X 3 grid is a structure to support thinking. It can be used at any level, with any sort of text, in any subject with all sorts of different headings. Here is one example. Students record in note form.

3 main ideas	3 most difficult words	3 new things I have learnt	3 questions I have about this text
