Zoom – Sharing the Document Camera from Lectern PC

1) Open Zoom and check whether the primary camera is selected as the webcam in the video settings.

![Select a Camera (Alt+N to switch)](image)

Ensure the Webcam is selected as the primary Camera so that the Logitech Screen Share (Document Camera) can be selected as a 2nd Camera via Advanced Sharing.

Note: you can keep the webcam disabled.

2) Select Share Screen or New Share option on Zoom

![Share Screen](image)

3) Choose Advanced sharing option, then select Content from 2nd Camera and click Share

![Advanced Sharing](image)
4) Project ‘Document Camera’ onto the ‘recordable display’ using the Touchpanel.

5) Document camera shared via Zoom
