

Grievance and Complaints

POLICY RATIONALE

Holy Family Catholic School OSHC encourages children, parents, guardians and community members to provide feedback on our policies, procedures and services and welcomes each input as a means of improving its service delivery and upholding positive relationships between Holy Family Catholic School OSHC and its stakeholders.

Holy Family Catholic School OSHC provides guidelines on managing disputes and incidents fairly and equitably, and within a reasonable timeframe. Holy Family Catholic School OSHC recognises the rights of all children, families and community members to have a clear, concise and transparent Grievance and Complaints procedure.

Where possible, complaints will be addressed by the Director of service (or Responsible Person). If the complaint is about an issue that the Service considers outside their control, or the individual does not feel they wish to share it with the educator. In that case, the individual may be directed to Principal to resolve their complaint.

Holy Family Catholic School OSHC has an obligation to inform the relevant regulatory authority of complaints alleging that the safety, health or wellbeing of a child or children was or is being compromised while that child or children is or are being educated and cared for by the service.

PROCEDURES

EDUCATOR ROLE

Should an issue be brought to the attention of the Responsible Person of the service by a parent, child, educator or any other member of the community, the Responsible Person will follow the following procedures:

- Actively listen to the complaint, ask questions to clarify and improve the understanding of the complaint.
- Attempt to diffuse emotions by acknowledging what they are feeling and state positively that you wish to seek a solution to the issue that is causing concern.
- Ask the complainant if they have any strategies or solutions that they feel could be put in place to resolve their issues.
- Avoid responding immediately and defensively to the issues raised. If the problems are complex, or if several concerns are being presented at once, it may be beneficial to take notes or ask the complainant to write their concerns.
- Ensure at all stages when discussing the issues with educators and Director that professionalism and confidentiality is maintained.
- Advise the Director of the complaint
- Work with the Director to manage the situation, investigate and report back to the complainant.
- Where necessary, the Director will advise the Principal of the nature of the complaint.
- If the complaint is deemed notifiable (see below), the following steps will be taken to lodge a notification of complaint:

- If the National Law or National Regulations are being or have been contravened.

CHILDREN

Families may need to assist their children in communicating with educators about issues at the service, and time to talk about these may be arranged at pick up or collection times.

If a child wishes to raise a complaint against another child at the service:

- They will be encouraged to talk to their preferred educators about the issue. Educators will support children to manage their relationships and behaviours at the service by following policies on “Interactions with children” and the procedure of guiding children’s behaviour.

If a child wishes to raise a complaint against an Educator at the service:

- The child will be encouraged to talk to another educator or the Responsible Person. Children are supported to discuss their experiences at the service with their families.

If a child wishes to raise a complaint against a Parent/Guardian or another adult:

- The Responsible Person will assess the complaint and discuss any serious issue with their Director, who will listen, support and report. For any serious allegations, refer to the ‘Child Protection Policy’.
- If a child is concerned about anything or anyone at the service, they are encouraged to discuss the issue with the Educator or Responsible Person they know best.
- Educators will support children to talk about things they like and things they don’t like with their families.

Although it is not a formal requirement, children are welcome to submit their complaints verbally or in writing. To help in the resolution of the complaint, if the complaint is in writing, Holy Family Catholic School OSHC asks that the following information is provided by the child, with the assistance of a family member/ guardian:

- Date(s) and time(s) of the occurrence(s) causing the complaint
- Where the problem occurred?
- Who was involved?
- What caused the problem?
- Steps taken to date to try to resolve the problem.

COMPLAINTS MADE BY A PARENT/GUARDIAN

All families will be informed of complaints and grievances procedures through the availability of this policy on the service website (R168).

If a Parent/Guardian wishes to raise a complaint against a child or other Parent/Guardian at the service, the Director of Service (or Responsible Person) will discuss with the Parent/Guardian raising the complaint about the issue. The child or Parent/ Guardian who the complaint is about will not be included in any conversation or confrontation by the Parent/Guardian that is the complainant, and in allegations of a serious nature, the Director of Service (or Responsible Person) will use professional discretion when assessing the other child and their family’s involvement.

If a Parent/Guardian wishes to raise a complaint against an educator at the service, this is to be communicated with the Director of Service (or Responsible Person), or by contacting the Holy Family Catholic School Principal.

- Where the complaint is about an Educator, the individual will be notified of the complaint, and its nature, as soon as possible. The Educator will be given an opportunity to reply and be required not to communicate with the complainant about the complaint during this period.
- If the complaint is assessed to be substantiated, the resolutions will be discussed and agreed upon between all parties.
- If following the investigation, a complaint is assessed to have no foundation, both parties will be informed, and the reasons will be explained.
- All steps within the process, including findings, will be documented to further inform policy and procedures review, staff professional development opportunities and Quality Improvement Plan (QIP) development.

“Continuous improvement is an essential practice for education and care services and an underpinning requirement of the National Quality Framework. Complaints and grievances can be used to identify a focus for critical reflection of practices, programs and team performance. Complaints can be used as a positive resource for self-assessment and can inform the service’s philosophy, quality improvement plan, policies and procedures. Services require the constant review of a changing environment to enable continuous improvement, and using the complaint or grievance as the basis could assist in achieving continuous improvement.”
