

Here are major events of space:

1961

1 astronaut,
Yuri Gagarin a
Russian man
took the Vostok
1 to the moon.

1969

3 astronauts, Neil
Armstrong, pilot Buzz
Aldrin and Michael
Collins, US team.
Where the first people
to step onto the
moon. They took the
Apollo 11 to do this
mission.

1973

Multiple
astronauts
from US made
a sky lab to
live in space.

1981

Multiple
astronauts from
Columbia made
the beginning of
the reusable space
crafts. Which lead
to the (ISS)

From 2000

The international
space station or the
(ISS). Multiple
astronauts have live
in huge space craft
structure that you
can see from earth
from the year 2000.
