

Manor Lakes Grade 1

Dear Parents/Guardians,

To help ensure that we are making best use of the iPads in the classroom can you please download and install the following apps onto your child's iPad. Also we are finding it hard to save documents and work as often the iPads have too many apps installed and not enough memory. If you could please have a look at your child's iPad and remove any apps that they do not use, it would be much appreciated.
