My question

‘How far

can

a golf ball travel?’

so read this book

to be aware of

**this amazing
question.**

By Anthony Brand

My question:

**My question was ‘How far
can a golf ball travel?’**

**Well, the most honest
answer would have to
be, ‘It all depends on...’**

**In this book, your mind
will explode of the
knowledge of the**

history and equipment in golf.

History of

the ball

Did you know the golf ball used to be made out of leather? It's true. the history of the ball from materials to dimples has had a massive massive change on the sport.

Now, the average amount of dimples on the ball in from 250-450. The

record breaker is an amazing 1070 dimples in one ball! If you are wondering what the dimples do, they give the ball more auto-spin to go faster.

Distances

If you didn't know, the longest a golf ball has ever traveled is 470.9! The average hit of a driver from a man is 210.312.

The average hit from a driver from a lady is 164.592.

GOLF CLUBS AND BALLS

A GOLF BALL CANNOT BE ANY SMALLER THAN 42.67 MILLIMETERS AND HAS TO WEIGH NO MORE THAN 45.93 GRAMS. IN THE CLUBS, THERE ARE HEAPS OF DIFFERENT CLUBS SUCH AS 1-9 IRON, 1-9 WOODS, WEDGES, DRIVERS AND PUTTERS.

**DIFFERENT CLUBS ARE USED
FOR DIFFERENT USES FOR
EXAMPLE, THE WEDGE IS USED
TO HIT THE GOLF BALL OUT OF
THE SAND.**
