

# MAKE 20

<b>LEARNING FOCUS:</b>	Mental strategies – addition, subtraction, multiplication and division.
<b>NUMBER OF PLAYERS:</b>	2 - 3
<b>EQUIPMENT:</b>	Deck of cards Scoring paper / pencil
<b>HOW TO PLAY:</b>	<p>Players are given 4 cards each.</p> <p>Using any of the four operations (division, multiplication, addition, subtraction) the player tries to make a total of 20.</p> <p>All 4 cards must be used once.</p> <p>If the player makes exactly 20 they score 10 bonus points for making 20 plus their score of 20 (30 altogether).</p> <p>The next player has his/her turn.</p> <p>If they are unable to make 20, their score is the number they made that is less than 20.</p> <p>Play continues with players trying to make 20 with another four cards.</p> <p>After each turn the scores are added to the player's total.</p> <p>The first player to reach 200 is the winner.</p>
<b>VARIATIONS:</b>	Can you think of variations to this game?
