

Counting on Instructions

$$17 + 9 =$$

Here is an example of how to count on:

1. Find the **biggest/ highest/ largest** number first
2. Work out how many we **need to count on**
3. Start at the **highest number** and count on the amount
4. Start counting from the **next number**
18,19,20,21,22,23,24,25,26
5. Write down the answer which is the number that we end up with

USING A NUMBER LINE TO COUNT ON:

$$94 + 8 =$$
