

**Grammar: Suffixes**

- A **suffix** is a word ending (e.g. -ful -ly -ing) added to the end of a root word
- A **root word** stands on its own as a word. e.g. good or walk

Suffixes can make word families: happy, happier, happily

Make word families out of these words by adding suffixes of your choice:

- walk
- read
- sing
- Wonder

*Challenge (optional): Put each word with its suffix into an interesting sentence.*

**Maths Problem Solving**

***Make a list of as many answers to these questions as you can:***

1. When I add two numbers, the answer is 20. What might my sum be?
2. When I add two 2-digit numbers, the answer is 50. What might my sum be?
3. My answer is 18 what is my sum? Please make as many sums and number stories as you can.

**Inquiry**

Creativity is when something new and somehow valuable is formed/made.

In history there have been many creative people who have made beautiful music, artworks or invented wonderful things. Choose one person who you think is really creative and make a poster about them.

This will include a picture, some facts about the person and reasons why you think they are creative.

**Reading Log & Times-tables**
