

THE TEACHING YEAR with Belinda Webb

Video Transcript

This transcript is of Edition #08 – How can my students and colleagues help me be a great teacher?

- Belinda: [00:00](#) Hi again and welcome back to the teaching year. Within the first two years as the graduate teacher, you'll be required to undertake your VIT application for full registration. This is a really wonderful process and a great opportunity to learn some new skills and refine something that you would not be really sure about. So, my tip for you is to challenge yourself to be reflective about your practice and choose something that you might currently feel challenged by, or use this as an opportunity to learn and grow in your development as a teacher.
- Belinda: [00:34](#) Whilst the process is formal in its layout, it's a great opportunity to further your development, and it's important that you engage in the program with your mentor. So if you haven't already, make a time to sit down and discuss with your mentor or book in for a VIT information session to find out more about the process of applying before registration and what this might look like and how you're going to put this into practice in your classroom. Follow along with the online learning editions to find out more about the VIT learning portfolio.
