

# Pedagogy

Building digital learning capacity

School eLearning Plan

Anderson Test

Taylor Mali

**Pedagogy** is the discipline that deals with the theory and practice of education; it thus concerns the study and practice of how best to **teach**.

[Pedagogy - Wikipedia, the free encyclopedia https://en.wikipedia.org/wiki/Pedagogy](https://en.wikipedia.org/wiki/Pedagogy)

Effective Pedagogical Practices

Engage in the intellectual work together.

Your team has been allocated some reading and viewing.

Look to discover any themes related to the question below, these need to be written as single words or very short phrases.

Analyse all the themes and then select those that your team agree they could use to complete the sentence, "Children will be successful when they leave school if they can...?"

By now it should be 11.00am...time for morning tea

As a year level prepare a presentation to share with the rest of the staff, everyone in your team must use their iPad in this process.

The presentation needs to be less than 30 seconds long.

Once you are ready it should be 1.00pm, come to the staffroom to share.
