Growing up Digital – presentation for schools

This informative and engaging 25 slide PowerPoint presentation has been designed by Robyn Treyvaud, Educational Consultant and Founder of Cyber Safe Kids.

It aims to help parents understand the kind of digital technologies young people enjoy, the challenges and risks these might bring, and some resources to help parents manage the media diet in their family.

The presentation can be used as it is or schools may wish to tailor it to their school communities' needs.

It includes comprehensive speaker notes and guidance for getting your audience involved in discussion.
