2018 Education Workshops

Build your skills and inspire your students with free professional development workshops for teachers by the Apple Solution Expert network. The Apple Solution Expert network is a community of Apple Authorised Resellers who provide support to schools.

Phill Cristofaro

Meet your Apple Professional Learning Specialists

Phill Cristofaro has more than 25 years experience in education and has established himself as a leading innovations coach. A strong focus on student voice and agency, ensures Phill's work in schools is authentic and meaningful.

Laura Meney

Laura Meney is an innovative leader who has taught in many different educational settings, including K-9 and specialist schools. An established eLearning Leader, she has a deep understanding of how to empower both teachers and students to leverage technology effectively..

How do I register?

Please click the name of the event you would like to attend below. This will take you to the workshop registration page.

Places are limited so register soon.

What will be covered?

These 2 1/2 hour workshops will be focused on one of the three topics below. You are welcome to attend one or as many as you would like. Each workshop will focus on hands-on activities and practical examples that you can implement in the classroom tomorrow.

Topic A - Engaging Young Learners with iPad

iPad can be used to create interactive and engaging learning experiences that enhance all aspects of learning for young children. Join us to learn how educators use the built-in features of iPad and education apps to increase students access to language, provide interactive reading experiences, reinforce new learning concepts and allow students in years K-2 to share knowledge. Discover how iPad and free resources from Apple Teacher can empower your learners and elevate teaching in early years programs.

Topic B - Engaging Primary Learners with iPad

As an educator, you're always looking for new ways to create innovative learning experiences that improve literacy, numeracy, creativity and student engagement. Join us to discover how to personalise learning using iPad for years 3-6 students. Explore Apple Teacher, an online professional learning program, to unlock the power of iPad and education apps in your classroom. And be inspired by free learning resources, and inspirational stories of teachers using iPad in amazing ways.

Topic C - Tech Tours

In this workshop, explore the best ways to deploy iPad in Education settings, discover DEP, get hands on with the Classroom App and much more. Discover the significant enhancements Apple has made to iOS for schools and institutions to enable technology managers, IT administrators and teachers to more easily set up iPad and manage it in the classroom. These new updates help simplify and streamline deployment in both one-to-one and shared environments, so your school can get up and running quickly.
