

Create a Post

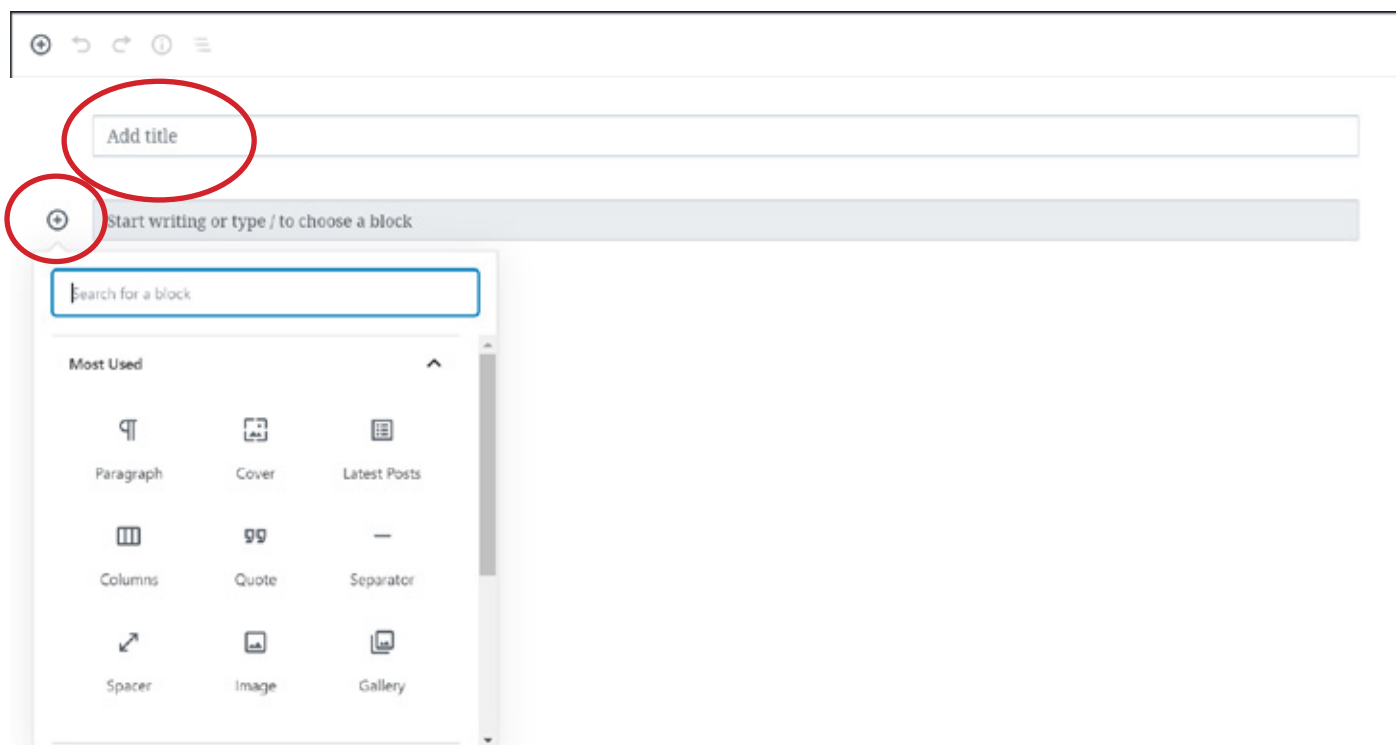

Step 1

In the WordPress Dashboard click **Posts > Add New**

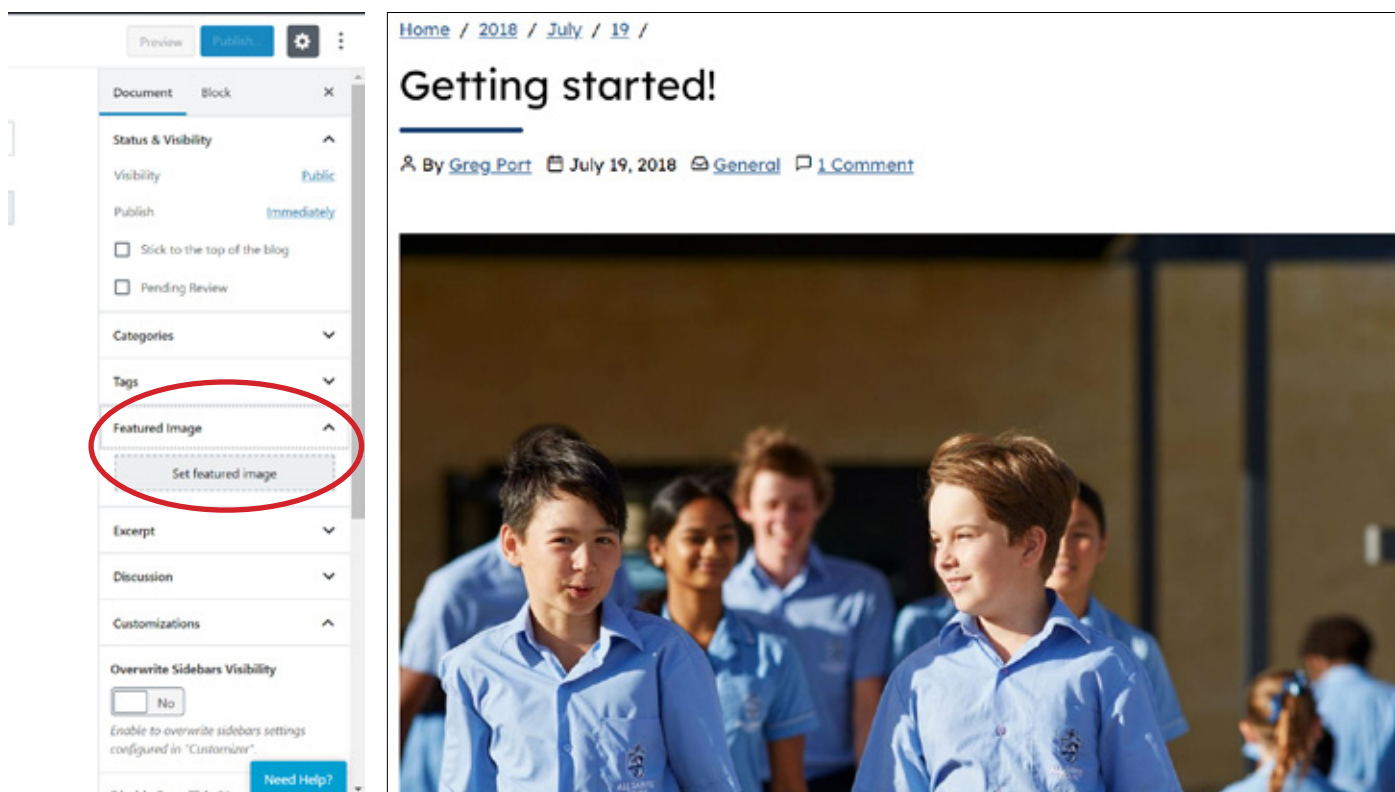

Step 2

Give the post a title. Add post content by clicking the plus sign and choosing the type of content you would like to add. There are lots of different content types - have a look and explore the different options available for your posts!

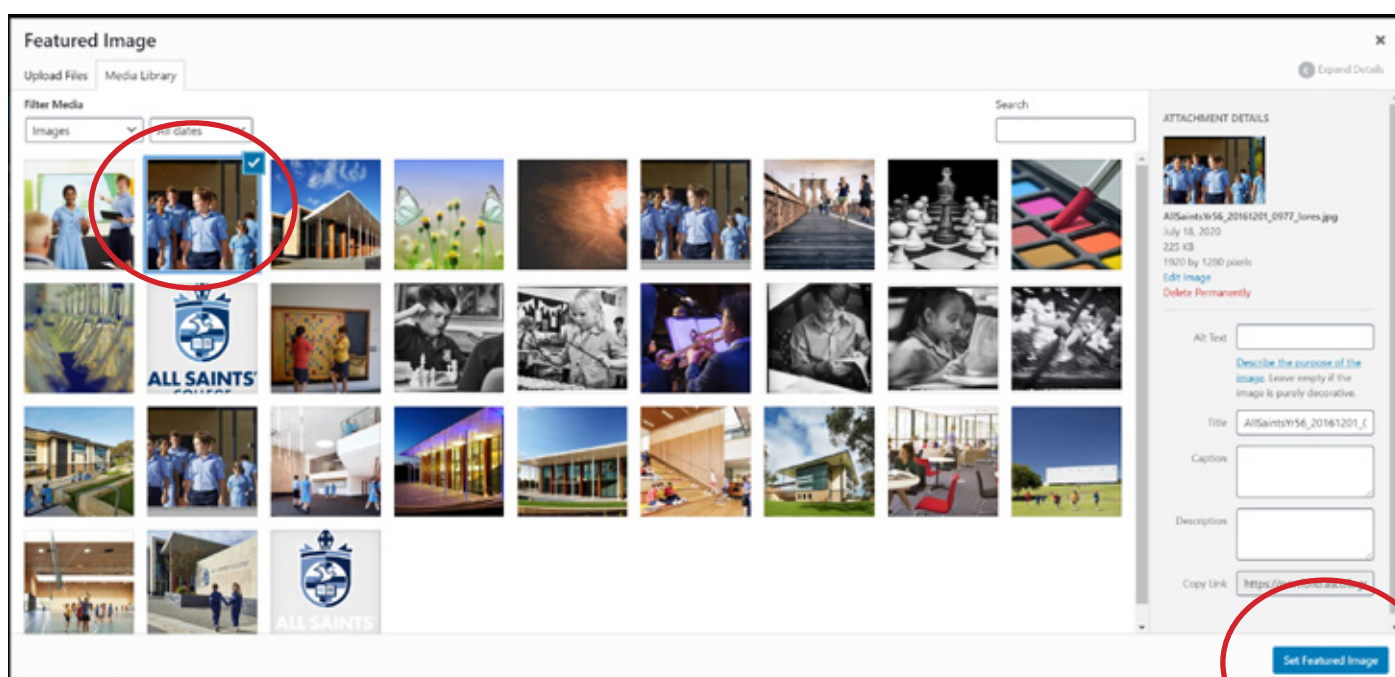

Step 3

Add a featured image if desired. To do this you will click **“Set Featured Image”** in the bottom right area of the post admin page. The picture you choose will be displayed as a feature image on the post page.

Step 4

Select the photo you wish to use from the Media Library or upload a new photo.

Step 5

Click "**Save Draft**" to save your post without publishing. Click "**Publish**" when you are prepared to make the post live for viewers.
