Engineering Building**
[Map here](#)

Population and travel continues to grow but transport infrastructure is struggling to keep up. What is the future of travel?

This is a free seminar

Host

**SWIN
BUR
* NE ***

SWINBURNE
UNIVERSITY OF
TECHNOLOGY

Smart Cities Research Inst

A/Prof Hussein Dia

will provide an update on autonomous vehicle developments.

John Cleeland

will describe how a completely different type of infrastructure could add capacity and safety to the existing system. Could Podcars be part of the solution?

Justin Passaportis

will talk about the role that car-sharing could play.

Registration

Please confirm your attendance by registering by midday Monday 11th Sep 2017
